# Introduction

---

# 1

This document contains a preliminary design description. It seeks to close the gap between the requirements and the design phase, by clarifying the high-level design concept, which will implement the requirements in the System Requirements Specification.

# Referenced Documents 2

---

This chapter contains a brief description of the documents referenced to in this document.

Version	Document name	Description
1.3	System Requirement Specification	The System Requirement Specification(SRS) contains all of the requirements that the system has to fulfil.
